Dear teachers,

Our team at Wiseman Education has developed **Fun and Friends Book Club**, an online learning suite that encourages self-directed reading habits, develops learners' information literacy and serves as an assessment that promotes learning.

In our latest efforts to support active learning in the classroom, we are supplementing our existing interactive online learning tool with a variety of popular e-learning tools.

Quizlet

- Review target vocabulary words

nearpod

- Reinforce language functions and focus

Kahoot!

- Revision of reading comprehension skills

These resources are specially prepared to maximise teaching and learning effectiveness in the classroom. Please note that these resources are also available as printables in the respective Teacher's Guides and online questions in our **Fun and Friends Book Club**.

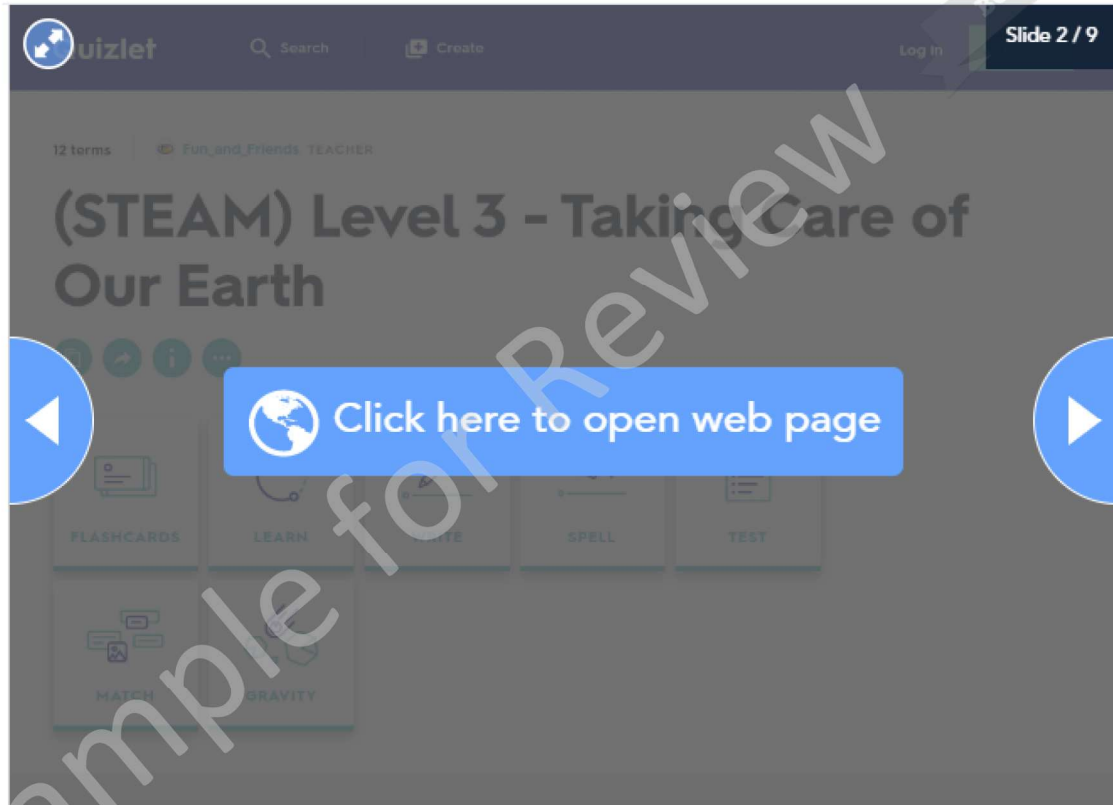

We hope this will continue to pave the way for learners to enjoy a fun and fruitful English-learning experience!

Reading Comprehension

The activities in this interactive multi-player exercise help students reinforce their reading comprehension skills. Please note that this is a separate Kahoot!-based activity that is not part of the Nearpod experience. To access this content, first direct your students to click on the following link embedded in Nearpod.

Next, open a new browser window in your **own** device and enter the following link: <https://create.kahoot.it/share/finalised-steam-3-taking-care-of-our-earth-online-questions/11ca89df-bd06-475e-b58d-fef471c412fb>. Then select 'Play' -> 'Start Now' -> 'Classic/Team mode' to generate a Game Pin like the one below and have your students enter the same pin in their devices.

Please note that answers to all questions are available on the last page of the Teacher's Guide.
